

LIGHTWEIGHT

Flexon's Lightweight hoses are ideal for use around the home. The H2Zero hose offers the best in quality and durability. Its flexible inner core is surrounded by a woven fabric sleeve - making it ideal for watering lawns and gardens and other household chores. FeatherLite™ hoses are manufactured with the most innovative kink prevention and water flow technologies. Designed to stay flexible in both hot and cold temperatures, FeatherLite™ hoses provide maximum performance for years to come.

FLEXTREME™

Flextreme™ hoses are the most ideal for use around the home or jobsite. The Flextreme™ Professional hose offers year-round flexibility and remains pliable in all temperatures. Its kink-free technology and unique internal rod guarantee continuous water flow, even if the hose appears twisted or kinked. The Professional hoses also include a rotating male coupling that helps prevent kinking during initial hose set-up and future use. Flextreme™ Performance Rubber hoses are constructed of lightweight, synthetic rubber making them much easier to use than heavy rubber hoses. They also maintain maximum flexibility in both hot and cold temperatures.

Flexon Industries has been a leader in garden hose manufacturing for over 60 years. We have set the standards in quality, performance and reliability, led the industry in product innovation and provided high-quality customer service to distributors, retailers, landscape professionals and consumers.

Our wide selection of hoses will meet every need – from complex professional landscape installations to personal lawns and gardens. Choose from flexible lightweight hoses, heavy-duty professional models, soaker hoses or water-safe specialty hoses.

Flexon is proud to manufacture in the USA at two facilities. This alleviates delays due to overseas manufacturing, shipping issues and high tariffs. We utilize recycled content in our manufacturing which means when you use a Flexon hose, you are not just taking care of your lawn and garden – you are taking care of the environment too.
